

To: All Regulated Entities

From: The Financial Services Regulatory Commission – St. Kitts Branch

Date: 27 March 2025

Re: **FATF Public Statement February 2025**

On 21 February 2025, the FATF issued a Public Statement reiterating its call for all jurisdictions to apply enhanced due diligence for all countries categorized as High-Risk. The FATF also instructed jurisdictions to apply countermeasures, in the most serious cases, to protect the international financial system from the money laundering, terrorist financing and proliferation financing risks emanating from the countries. Since February 2020, **Iran** has reported in January, August and December 2024 with no material changes in the status of its action plan.

The FATF remains concerned by the **Democratic People's Republic of Korea's (DPRK)** continued failure to address the significant deficiencies in its AML/CFT regime and the serious threats posed by the DPRK's illicit activities related to the proliferation of weapons of mass destruction (WMDs) and its financing. In February 2024, the FATF noted DPRK's increased connectivity with the international financial system and therefore urges countries to adequately assess and account for the increased proliferation financing (PF) risk.

Myanmar has made recent progress against one item in its action plan by addressing technical compliance deficiencies regarding targeted financial sanctions related to PF, though progress is still slow. Myanmar will remain on the list of countries subject to a call for action until its action plan is complete. If no further progress is made by the end of June 2025, the FATF will consider countermeasures.

The Public Statement also highlighted Jurisdictions under Increased Monitoring, that are actively working with the FATF to address strategic deficiencies to counter money laundering, terrorist financing and proliferation financing. The following countries had their progress reviewed by the FATF since October 2024:

- | | |
|--------------------------------|--------------|
| ○ Bulgaria | ○ Kenya |
| ○ Burkina Faso | ○ Mali |
| ○ Cameroon | ○ Mozambique |
| ○ Croatia | ○ Namibia |
| ○ Democratic Republic of Congo | ○ Nigeria |

- Philippines
- South Africa
- South Sudan
- Tanzania
- Venezuela
- Vietnam

The FATF also updated its list of jurisdictions with AML/CFT deficiencies to reflect the removal of **The Philippines** from its increased monitoring process.

The outcomes of the FATF Plenary held during the period 19-21 February 2025 were also highlighted in the Public Statement. **Kenya** was invited to participate at the FATF Plenary and Working Groups under the new guest initiative aimed at increasing inclusivity and to better take into account regional specificities of the FATF. Kenya joins the **Cayman Islands** and **Senegal** who began participating in the guest initiative in October 2024.

The FATF documents are attached in their entirety and can also be accessed via the link below. They contain relevant information that each regulated entity, as part of the implementation of its risk-based approach, should be aware of.

Yours Sincerely,

.....
Kerstin Petty (Ms.)
Director

High-Risk Jurisdictions subject to a Call for Action - 21 February 2025

Paris, 21 February, 2025

High-risk jurisdictions have significant strategic deficiencies in their regimes to counter money laundering, terrorist financing, and financing of proliferation. For all countries identified as high-risk, the FATF calls on all members and urges all jurisdictions to apply enhanced due diligence, and, in the most serious cases, countries are called upon to apply countermeasures to protect the international financial system from the money laundering, terrorist financing, and proliferation financing (ML/TF/PF) risks emanating from the country. This list is often externally referred to as the “black list”.

Since February 2020, Iran reported in January, August and December 2024 with no material changes in the status of its action plan.

Given heightened proliferation financing risks, the FATF reiterates its call to apply countermeasures on these high-risk jurisdictions.

Jurisdictions subject to a FATF call on its members and other jurisdictions to apply countermeasures

Democratic People's Republic of Korea (DPRK)

Building upon the FATF statements over the past decade, the FATF remains concerned by the DPRK's continued failure to address the significant deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime and the serious threats posed by the DPRK's illicit activities related to the proliferation of weapons of mass destruction (WMDs) and its financing.

The FATF has continually reiterated since 2011 the need for all countries to robustly implement the targeted financial sanctions in accordance with UNSC Resolutions and apply the following countermeasures to protect their financial systems from the money laundering, terrorist financing, and proliferation financing threat emanating from DPRK:

- Terminate correspondent relationships with DPRK banks;
- Close any subsidiaries or branches of DPRK banks in their countries; and

- Limit business relationships & financial transactions with DPRK persons.

Despite these calls, DPRK has increased connectivity with the international financial system, which raises proliferation financing (PF) risks, as the FATF noted in February 2024. This requires greater vigilance and renewed implementation and enforcement of these countermeasures against the DPRK. As set out in UNSCR 2270, DPRK frequently uses front companies, shell companies, joint ventures and complex, opaque ownership structures for the purpose of violating sanctions. As such, FATF encourages its members and all countries to apply enhanced due diligence to the DPRK and its ability to facilitate transactions on its behalf.

The FATF also urges countries to adequately assess and account for the increased proliferation financing risk with the greater financial connectivity reported, particularly since the next round of assessments requires countries to adequately assess PF risks under Recommendation 1 and Immediate Outcome 11. The ability to obtain reliable and credible information to support the assessment of PF risks relating to the DPRK is hampered by the recent termination of the 1718 Committee Panel of Experts mandate. Thus, the FATF will monitor the measures to comply with DPRK targeted financial sanctions and the implementation of countermeasures against DPRK.

Iran

In June 2016, Iran committed to address its strategic deficiencies. Iran's action plan expired in January 2018. In February 2020, the FATF noted Iran has not completed the action plan.^[1]

In October 2019, the FATF called upon its members and urged all jurisdictions to: require increased supervisory examination for branches and subsidiaries of financial institutions based in Iran; introduce enhanced relevant reporting mechanisms or systematic reporting of financial transactions; and require increased external audit requirements for financial groups with respect to any of their branches and subsidiaries located in Iran.

Now, given Iran's failure to enact the Palermo and Terrorist Financing Conventions in line with the FATF Standards, the FATF fully lifts the suspension of countermeasures and calls on its members and urges all jurisdictions to apply effective countermeasures, in line with Recommendation 19.^[2]

Iran will remain on the FATF statement on [High Risk Jurisdictions Subject to a Call for Action](#) until the full Action Plan has been completed. If Iran ratifies the Palermo and Terrorist Financing Conventions, in line with the FATF standards, the FATF will decide on next steps, including whether to suspend countermeasures. Until Iran implements the measures

required to address the deficiencies identified with respect to countering terrorism-financing in the Action Plan, the FATF will remain concerned with the terrorist financing risk emanating from Iran and the threat this poses to the international financial system.

[1] In June 2016, the FATF welcomed Iran's high-level political commitment to address its strategic AML/CFT deficiencies, and its decision to seek technical assistance in the implementation of the Action Plan. Since 2016, Iran established a cash declaration regime, enacted amendments to its Counter-Terrorist Financing Act and its Anti-Money Laundering Act, and adopted an AML by-law.

In February 2020, the FATF noted that there are still items not completed and Iran should fully address: (1) adequately criminalizing terrorist financing, including by removing the exemption for designated groups "attempting to end foreign occupation, colonialism and racism"; (2) identifying and freezing terrorist assets in line with the relevant United Nations Security Council resolutions; (3) ensuring an adequate and enforceable customer due diligence regime; (4) demonstrating how authorities are identifying and sanctioning unlicensed money/value transfer service providers; (5) ratifying and implementing the Palermo and TF Conventions and clarifying the capability to provide mutual legal assistance; and (6) ensuring that financial institutions verify that wire transfers contain complete originator and beneficiary information.

[2] Countries should be able to apply appropriate countermeasures when called upon to do so by the FATF. Countries should also be able to apply countermeasures independently of any call by the FATF to do so. Such countermeasures should be effective and proportionate to the risks.

The Interpretative Note to Recommendation 19 specifies examples of the countermeasures that could be undertaken by countries.

Jurisdiction subject to a FATF call on its members and other jurisdictions to apply enhanced due diligence measures proportionate to the risks arising from the jurisdiction

Myanmar

In February 2020, Myanmar committed to address its strategic deficiencies. Myanmar's action plan expired in September 2021.

In October 2022, given the continued lack of progress and the majority of its action items still not addressed after a year beyond the action plan deadline, the FATF decided that further action was necessary in line with its procedures and FATF calls on its members and other jurisdictions to apply enhanced due diligence measures proportionate to the risk arising from Myanmar. The FATF requires that as part of enhanced due diligence, financial institutions should increase the degree and nature of monitoring of the business relationship, in order to determine whether those transactions or activities appear unusual or suspicious. If no further progress is made by June 2025, the FATF will consider countermeasures.

While overall progress continues to be slow, Myanmar has made recent progress against one item in its action plan by addressing technical compliance deficiencies regarding targeted financial sanctions related to proliferation financing. Myanmar should continue to work on implementing its action plan to address these deficiencies, including by: (1) demonstrating enhanced use of financial intelligence in law enforcement authorities (LEAs) investigations, and increasing operational analysis and disseminations by the financial intelligence unit (FIU); (2) ensuring that ML is investigated/prosecuted in line with risks; (3) demonstrating investigation of transnational ML cases with international cooperation; (4) demonstrating an increase in the freezing/seizing and confiscation of criminal proceeds, instrumentalities, and/or property of equivalent value; and (5) managing seized assets to preserve the value of seized goods until confiscation.

When applying enhanced due diligence, countries should ensure that flows of funds for humanitarian assistance, legitimate NPO activity and remittances are neither disrupted nor discouraged. The FATF will also continue to monitor whether Myanmar's AML/CFT activities apply undue scrutiny to legitimate financial flows.

Myanmar will remain on the list of countries subject to a call for action until its full action plan is completed.

Jurisdictions under Increased Monitoring - 21 February 2025

Paris, 21 February 2025

Jurisdictions under increased monitoring are actively working with the FATF to address strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. When the FATF places a jurisdiction under increased monitoring, it means the country has committed to resolve swiftly the identified strategic deficiencies

within agreed timeframes and is subject to increased monitoring. This list is often externally referred to as the “grey list”.

The FATF and FATF-style regional bodies (FSRBs) continue to work with the jurisdictions below as they report on the progress achieved in addressing their strategic deficiencies. The FATF calls on these jurisdictions to complete their action plans expeditiously and within the agreed timeframes. The FATF welcomes their commitment and will closely monitor their progress. The FATF does not call for the application of enhanced due diligence measures to be applied to these jurisdictions. The FATF Standards do not envisage de-risking, or cutting-off entire classes of customers, but call for the application of a risk-based approach. Therefore, the FATF encourages its members and all jurisdictions to take into account the information presented below in their risk analysis. As countries consider actions based on their risk analysis taking into account the information below, they should ensure that flows of funds for humanitarian assistance, legitimate NPO activity and remittances are neither disrupted nor discouraged. Countries should also consider their international obligations under United Nations Security Council Resolution 2761 (2024) on humanitarian exemptions to asset freeze measures imposed by UN sanctions regimes.

The FATF identifies additional jurisdictions, on an on-going basis, that have strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. A number of jurisdictions have not yet been reviewed by the FATF or their FSRBs, but will be in due course.

The FATF provides some flexibility to jurisdictions not facing immediate deadlines to report progress on a voluntary basis. The following countries had their progress reviewed by the FATF since October 2024: Bulgaria; Burkina Faso, Cameroon, Croatia, Democratic Republic of Congo, Kenya, Mali, Mozambique, Namibia; Nigeria, Philippines, South Africa, South Sudan, Tanzania, Venezuela, and Vietnam. For these countries, updated statements are provided below. Algeria, Angola, Côte d’Ivoire, Haiti, Lebanon, Monaco, Syria and Yemen chose to defer reporting; thus, the statements issued previously for those jurisdictions are included below, but it may not necessarily reflect the most recent status of the jurisdictions’ AML/CFT regimes. Following review, the FATF now also identifies Lao PDR and Nepal.

Algeria

(Statement from October 2024)

In October 2024, Algeria made a high-level political commitment to work with the FATF and MENAFATF to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its mutual evaluation report (MER) in May 2023, Algeria has made progress on many of the

MER's recommended actions including by more effectively pursuing money laundering investigations and prosecutions. Algeria will continue to work with FATF to implement its action plan by: (1) improving risk-based supervision, especially for higher risk sectors, including through the adoption of new procedures, risk assessments, supervision manuals and guidelines, as well as undertaking inspections and applying effective, proportionate and dissuasive sanctions; (2) developing an effective framework for basic and beneficial ownership information; (3) enhancing its regime for suspicious transaction reports; (4) establishing an effective legal and institutional framework for targeted financial sanctions for terrorism financing; and (5) implementing a risk-based approach to oversight of non-profit organisations, without disrupting or discouraging legitimate activity.

Angola

(Statement from October 2024)

In October 2024, Angola made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in June 2023, Angola has made progress on some of the MER's recommended actions including enhancing national cooperation and coordination, international cooperation and the use of financial intelligence by competent authorities. Angola will continue to work with the FATF to implement its FATF action plan by: (1) enhancing its understanding of ML/TF risks; (2) improving risk-based supervision of non-financial banking entities and DNFBPs; (3) ensuring competent authorities have adequate, accurate and timely access to beneficial ownership information and that breaches to obligations are adequately addressed; (4) demonstrating an increase in ML investigations and prosecutions; (5) demonstrating the ability to identify, investigate and prosecute TF; and (6) demonstrating an effective process to implement targeted financial sanctions without delay.

Bulgaria

Since October 2023, when Bulgaria made a high-level political commitment to work with the FATF and MONEYVAL to strengthen the effectiveness of its AML/CFT regime, Bulgaria has taken steps towards improving its AML/CFT regime, including by ensuring that the beneficial ownership information held in its Register is accurate and up-to-date and by identifying the subset of non-profit organisations (NPOs) most vulnerable to TF abuse. Bulgaria should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) addressing the remaining technical compliance deficiencies; (2) improving investigations and prosecutions of different types of money laundering in line with risks,

including high-scale corruption and organised crime; (3) ensuring the ability to conduct parallel financial investigations in all terrorism investigations; (4) addressing gaps in the PF TFS frameworks; and (5) demonstrating initial implementation of risk-based monitoring of NPOs to prevent abuse for TF purposes.

Burkina Faso

In February 2021, Burkina Faso made a high-level political commitment to work with the FATF and GIABA to strengthen the effectiveness of its AML/CFT regime, Burkina Faso should continue to work on implementing its action plan to address its remaining strategic deficiency, by implementing an effective targeted financial sanctions regime related to TF and PF.

The FATF notes Burkina Faso's continued progress across its action plan, however all deadlines have expired and work remains. The FATF urges Burkina Faso to swiftly implement its action plan to address the above-mentioned strategic deficiency as soon as possible as all deadlines expired in December 2022.

Cameroon

In June 2023, Cameroon made a high-level political commitment to work with the FATF and GABAC to strengthen the effectiveness of its AML/CFT regime. Cameroon has taken steps to improve its AML/CFT regime by aligning AML/CFT national strategies and policies with the findings of the NRA; demonstrating AML/CFT cooperation and coordination between competent authorities; improving risk-based prioritisation of incoming international cooperation, and establishing a regime for violations of transparency obligations applicable to legal persons. Cameroon should continue working on implementing its action plan to address its strategic deficiencies, including by: (1) enhancing risk-based supervision of banks and implementing effective risk-based supervision for non-bank FIs and DNFBPs, and conducting appropriate outreach to high-risk FIs and DNFBPs; (2) maintaining and ensuring timely access by competent authorities to adequate and up to date beneficial ownership information on legal persons; (3) enhancing secure information exchange between the FIU, reporting entities and competent authorities and demonstrating an increase in dissemination of intelligence reports to support operational needs of competent authorities; (4) demonstrating that authorities are able to conduct a range of ML investigations, and prosecute ML in line with risks; (5) implementing policies and procedures for seizing and confiscating proceeds and instrumentalities of crime and managing frozen, seized and confiscated property, and prioritising seizure and confiscation of assets at the border; (6)

demonstrating that TF investigations and prosecutions are pursued in line with risk; and (7) demonstrating effective implementation of TF and PF TFS regimes and implementing a risk-based approach to NPOs without disrupting legitimate NPO activities.

Côte d'Ivoire

(Statement from October 2024)

In October 2024, Côte d'Ivoire made a high-level political commitment to work with the FATF and GIABA to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in June 2023, Côte d'Ivoire has made significant progress on many of the MER's recommended actions including by strengthening its legal AML/CFT framework through several important legislative and regulatory amendments, updating ML/TF analysis by drafting typology reports on the highest risk predicate offences, strengthening the human and technical resources of the FIU and prosecutors, and operationalising the agency in charge of the management of assets seized and confiscated. Côte d'Ivoire will continue to work with the FATF to implement its FATF action plan by: (1) enhancing its use of international cooperation in ML/TF investigations and prosecutions; (2) improving the implementation of risk-based supervision of financial institutions and designated non-financial businesses and professions and conducting outreach campaigns to improve compliance; (3) improving the verification and access of basic and beneficial ownership information of legal persons and applying sanctions in case of violation; (4) enhancing the use of financial intelligence by law enforcement authorities and improving disseminations by the FIU; (5) demonstrating a sustained increase in the number of ML and TF investigations and prosecutions of different types in line with the country's risk profile; and (6) strengthening the targeted financial sanctions framework.

Croatia

In June 2023, Croatia made a high-level political commitment to work with the FATF and MONEYVAL to strengthen the effectiveness of its AML/CFT regime. At its February 2025 Plenary, the FATF made the initial determination that Croatia has substantially completed its action plan and warrants an on-site assessment to verify that the implementation of AML/CFT reforms has begun and is being sustained, and that the necessary political commitment remains in place to sustain implementation in the future.

Croatia has made the following key reforms including: (1) completing the national risk assessment, including assessing the ML/TF risk associated with the misuse of legal persons

and legal arrangements and the use of cash in the real estate sector; (2) increasing FIU human resources and improving analytical capabilities; (3) continuing to improve LEA detection, investigation and prosecution of different types of ML, including ML involving foreign predicate offences and the misuse of legal persons; (4) demonstrating a sustained increase in the application of provisional measures in securing direct/indirect proceeds, as well as foreign proceeds subject to confiscation; (5) demonstrating the ability to systematically detect and where relevant investigate TF in line with its risk profile; (6) establishing a national framework for the implementation of UN TFS measures and providing guidance and conducting outreach and training to reporting entities; and (7) identifying the subset of NPOs most vulnerable to TF abuse and providing targeted outreach to NPOs and to the donor community on potential vulnerabilities of NPOs to TF abuse.

Democratic Republic of the Congo

Since October 2022, when the DRC made a high-level political commitment to work with the FATF and GABAC to strengthen the effectiveness of its AML/CFT regime, the DRC has taken steps towards improving its AML/CFT regime, including by establishing a mechanism to promote interagency coordination and cooperation on both ML and TF at the operational level. The DRC should continue to work to implement its FATF action plan to address its strategic deficiencies, including by: (1) developing and implementing a risk-based supervision plan; (2) building the capacity of the FIU to conduct operational and strategic analysis; (3) strengthening the capabilities of authorities involved in the investigation and prosecution of ML and TF; and (4) demonstrating effective implementation of TF and PF-related TFS.

Haiti

(Statement from June 2024)

Since June 2021, when Haiti made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime, Haiti has taken steps towards improving its AML/CFT regime, including improving the FIU's access to and use of a wide range of information in its financial intelligence products through the adoption of a new organic law. The FATF recognises the political commitment expressed at a high level and the efforts demonstrated by Haiti to advance its commitments in the midst of the challenging social, economic and security situation within the country. Haiti should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) completing its ML/TF risk assessment process and disseminating the findings; (2)

implementing risk-based AML/CFT supervision for all financial institutions and DNFBPs deemed to constitute a higher ML/TF risk; (3) ensuring basic and beneficial ownership information are maintained and accessible in a timely manner; (4) ensuring the FIU has adequate resources and processes to produce and disseminate operational and strategic analysis to competent authorities for combatting ML and TF; (4) demonstrating authorities are identifying, investigating and prosecuting ML cases in a manner consistent with Haiti's risk profile; (5) demonstrating an increase of identification, tracing and recovery of proceeds of crimes; (6) addressing the technical deficiencies in its targeted financial sanctions regime; and (7) conducting appropriate risk-based monitoring of NPOs vulnerable to TF abuse without disrupting or discouraging legitimate NPO activities.

The FATF notes Haiti's continued progress across its action plan, however all deadlines are expired and work remains. The FATF encourages Haiti to continue to implement its action plan to address the above-mentioned strategic deficiencies.

Kenya

Since February 2024, when Kenya made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime, Kenya has taken steps towards improving its AML/CFT regime, including by completing a TF risk assessment and by bringing its TFS framework related to proliferation financing into compliance. Kenya should continue to work to implement its FATF action plan to address its strategic deficiencies, including by: (1) presenting the results of the NRA and other risk assessments in a consistent manner to competent authorities and the private sector and updating the national AML/CFT strategies; (2) improving risk-based AML/CFT supervision of FIs and DNFBPs and adopting a legal framework for the licensing and supervision of VASPs; (3) enhancing the understanding of preventive measures by FIs and DNFBPs, including to increase STR filing and implement TFS without delay; (4) designating an authority for the regulation of trusts and collection of accurate and up-to-date beneficial ownership information and implementing remedial actions for breaches of compliance with transparency requirements for legal persons and arrangements; (5) improving the use and quality of financial intelligence products; (6) increasing ML and TF investigations and prosecutions in line with risks; (7) bringing the TFS framework in compliance with R.6 and ensure its effective implementation; and (8) revising the framework for NPO regulation and oversight to ensure that mitigating measures are risk-based and do not disrupt or discourage legitimate NPO activity.

LOA PDR

In February 2025, Lao PDR made a high-level political commitment to work with the FATF and APG to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in August 2023, Lao PDR has made progress on some of the MER's recommended actions including increasing FIU resources and eliminating bearer shares. Lao PDR will continue to work with the FATF to implement its FATF action plan by: (1) enhancing its understanding of ML/TF risks; (2) improving risk-based supervision of casinos, banks and reporting entities in SEZs, including fit and proper checks; (3) enhancing the quality and quantity of financial intelligence analysis and spontaneous dissemination to law enforcement agencies; (4) ensuring law enforcement agencies receive training and guidance on money laundering; (5) demonstrating an increase in ML investigations and prosecutions in line with Lao PDR's risk profile, with an emphasis on crimes with a transnational element that require international cooperation; (6) developing a national confiscation policy consistent with its ML/TF risks; (7) demonstrating that relevant competent authorities are taking measures to identify, seize and, where applicable, confiscate proceeds and instrumentalities of crime in line with the risk profile; (8) monitoring FIs' and DNFBPs' compliance with TFS PF obligations; and (9) addressing technical compliance deficiencies in Recommendations 5, 6, 7 and 10.

Lebanon

(Statement from October 2024)

In October 2024, Lebanon made a high-level political commitment to work with the FATF and MENAFATF to strengthen the effectiveness of its AML/CFT regime in spite of the challenging social, economic and security situation within the country. Since the adoption of its MER in May 2023, Lebanon has made progress on several of the MER's recommended actions and has applied measures to its financial sector, including through issuing a circular for banks and financial institutions to establish a department dedicated to combating bribery and corruption related crimes and guidance on politically exposed persons, while taking measures against unlicensed financial activity.

Lebanon will continue to work with the FATF to implement its FATF action plan by: (1) conducting assessments of specific terrorist financing and money laundering risks identified in the MER and ensuring that policies and measures are in place to mitigate these risks; (2) enhancing mechanisms to ensure the timely and effective execution of requests for mutual legal assistance, extradition and asset recovery; (3) enhancing DNFBPs' risk understanding and applying effective, proportionate and dissuasive sanctions for breaches

of AML/CFT obligations; (4) ensuring beneficial ownership information is up-to-date and that there are adequate sanctions and risk-mitigating in place for legal persons; (5) enhancing competent authorities' use of products of the FIU and financial intelligence; (6) demonstrating a sustained increase in investigations, prosecutions and court rulings for types of ML in line with the risk; (7) improving its approach to asset recovery and identifying and seizing illicit cross-border movements of currency and precious metals and stones; (8) pursuing TF investigations and sharing information with foreign partners related to investigations of TF as called for in the MER; (9) enhancing the implementation of targeted financial sanctions without delay, particularly at DNFBPs and certain non-banking financial institutions; and (10) undertaking targeted and risk-based monitoring of high-risk NPOs, without disrupting or discouraging legitimate NPO activities.

Mali

In October 2021, Mali made a high-level political commitment to work with the FATF and GIABA to strengthen the effectiveness of its AML/CFT regime. At its February 2025 plenary, the FATF made the initial determination that Mali has substantially completed its action plan and warrants an on-site assessment to verify that the implementation of AML/CFT reforms has begun and is being sustained, and that the necessary political commitment remains in place to sustain implementation in the future.

Mali has made key reforms by: (1) disseminating the results of the NRA to all relevant stakeholders including by conducting awareness raising activities with the highest risk sectors; (2) developing a risk based approach for the AML/CFT supervision of all FIs and higher risk DNFBPs and demonstrating effective, proportionate and dissuasive sanctions for noncompliance; (3) conducting a comprehensive assessment of ML/TF risks associated with all types of legal persons; (4) increasing the capacity of the FIU and the LEAs and enhancing their cooperation on the use of financial intelligence; (5) ensuring relevant competent authorities are involved in investigation and prosecution of ML; (6) strengthening the capacities of relevant authorities responsible for investigation and prosecution of TF cases; (7) establishing a legal framework and procedures to implement targeted financial sanctions; and (8) implementing a risk-based approach for supervision of the NPO sector to prevent abuse for TF purposes.

Monaco

(Statement from June 2024)

In June 2024, Monaco made a high-level political commitment to work with the FATF and MONEYVAL to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its mutual evaluation report (MER) in December 2022, Monaco has made significant progress on several of the MER's recommended actions including by establishing a new combined financial intelligence unit (FIU) and AML/CFT supervisor, strengthening its approach to detecting and investigating terrorism financing, implementing targeted financial sanctions and risk-based supervision of non-profit organisations. Monaco will continue to work with FATF to implement its action plan by: (1) strengthening the understanding of risk in relation to money laundering and income tax fraud committed abroad; (2) demonstrating a sustained increase in outbound requests to identify and seek the seizure of criminal assets abroad (3) enhancing the application of sanctions for AML/CFT breaches and breaches of basic and beneficial ownership requirements; (4) completing its resourcing program for its FIU and strengthen the quality and timeliness of STR reporting; (5) enhancing judicial efficiency, including through increasing resources of investigative judges and prosecutors and the application of effective, dissuasive and proportionate sanctions for money laundering; and (6) increasing the seizure of property suspected to derive from criminal activities.

Mozambique

Since October 2022, when Mozambique made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime, Mozambique has taken steps towards improving its AML/CFT regime, including by implementing a risk-based supervision plan along with effective and proportionate sanctions, increasing financial intelligence sent to authorities and demonstrating the ability to identify TF cases. Mozambique should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) carrying out a risk assessment for NPOs in line with the FATF Standards and using it as a basis to develop an outreach plan.

Namibia

Since February 2024, when Namibia made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime, Namibia has taken steps towards improving its AML/CFT regime, including by strengthening FIU resources dedicated to both its supervision responsibilities and operational and strategic analysis, and increasing the LEAs' financial and human resources dedicated to TF. Namibia should continue working on implementing its FATF action plan to address strategic deficiencies, including by: (1) strengthening its AML/CFT risk based supervision through conducting

offsite and onsite inspections informed by supervisory risk assessment tools and applying effective, proportionate and dissuasive sanctions for breaches of AML/CFT obligations; (2) enhancing preventive measures through inspections and outreach to ensure that FIs and DNFBPs apply enhanced due diligence measures as well as TFS obligations related to TF and PF without delay; (3) increasing the filing of beneficial ownership information of legal persons and arrangements, and applying remedial actions and/or effective, proportionate and dissuasive sanctions against breaches of compliance with beneficial ownership obligations; (4) improving the cooperation between the FIU and LEAs to enhance the use and integration of financial intelligence in investigations; (5) enhancing the operational capabilities of authorities involved in ML investigations and prosecutions by providing them with adequate resources and targeted trainings; (6) demonstrating the LEAs' capabilities to effectively investigate and prosecute ML/TF cases.

Nepal

In February 2025, Nepal made a high-level political commitment to work with the FATF and APG to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in August 2023, Nepal has made progress on some of the MER's recommended actions including streamlining MLA requests and increasing the capabilities of the FIU. Nepal will continue to work with the FATF to implement its FATF action plan by: (1) improving its understanding of key ML/TF risks; (2) improving risk-based supervision of commercial banks, higher risk cooperatives, casinos, DPMS and real estate sector; (3) demonstrating identification and sanctioning of materially significant illegal MVTs/hundi providers, without hindering financial inclusion; (4) increasing capacity and coordination of competent authorities to conduct ML investigations; (5) demonstrating an increase in ML investigations and prosecutions; (6) demonstrating measures to identify, trace, restrain, seize and, where applicable, confiscate proceeds and instrumentalities of crime in line with the risk profile; (7) addressing technical compliance deficiencies in its targeted financial sanctions regime for TF and PF.

Nigeria

Since February 2023, when Nigeria made a high-level political commitment to work with the FATF and GIABA to strengthen the effectiveness of its AML/CFT regime, Nigeria has taken steps towards improving its AML/CFT regime, including by improving AML/CFT risk-based supervision of FIs and DNFBPs, ensuring that competent authorities have timely access to accurate and up-to-date beneficial ownership information on legal persons and

demonstrating a sustained increase in ML and TF investigations and prosecutions in line with the country's risk profile.. Nigeria should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) enhancing implementation of preventive measures for high-risk sectors; and (2) proactively detecting violations of currency declaration obligations and applying appropriate sanctions.

South Africa

Since February 2023, when South Africa made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime, South Africa has taken steps towards improving its AML/CFT regime including by demonstrating that all supervisors apply effective, proportionate, and effective sanctions, ensuring competent authorities have timely access to accurate and up to date BO information on legal persons and arrangements and applying sanctions for breaches of violation by legal persons to beneficial ownership obligations. South Africa should continue to work on implementing its action plan to address its remaining strategic deficiency on demonstrating a sustained increase in investigations and prosecutions of serious and complex money laundering and the full range of TF activities in line with its risk profile.

South Sudan

Since June 2021, when South Sudan made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime, South Sudan has taken steps towards improving its AML/CFT regime, including by finalising its comprehensive review of the AML/CFT Act (2012) to comply with the FATF Standards. South Sudan should continue to work to implement its action plan, including by: ; (1) fully implementing the 1988 Vienna Convention, the 2000 Palermo Convention, and the 1999 Terrorist Financing Convention; (2) ensuring that competent authorities are suitably structured and capacitated to implement a risk-based approach to AML/CFT supervision for financial institutions; (3) developing a comprehensive legal framework to collect and verify the accuracy of beneficial ownership information for legal persons; (4) finalising the operationalisation of a fully functioning and independent FIU; (5) establishing and implementing the legal and institutional framework to implement targeted financial sanctions in compliance with United Nations Security Council Resolutions on terrorism and WMD proliferation financing; and (6) commencing implementation of targeted risk-based supervision/monitoring of NPOs at risk of TF abuse.

The FATF notes South Sudan's limited progress across its action plan with all deadlines now expired and work remaining. The FATF again encourages South Sudan to continue to implement its action plan to address the above-mentioned strategic deficiencies as soon as possible and demonstrate strong political and institutional commitment to strengthen the effectiveness of its AML/CFT regime, particularly in supporting the lead AML/CFT agency in coordinating national AML/CFT efforts.

Syria

(Statement from February 2023)

Since February 2010, when Syria made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Syria has made progress to improve its AML/CFT regime. In June 2014, the FATF determined that Syria had substantially addressed its action plan at a technical level, including by criminalising terrorist financing and establishing procedures for freezing terrorist assets. While the FATF determined that Syria has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation, and will conduct an on-site visit at the earliest possible date.

Tanzania

In October 2022, Tanzania made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime. At its February 2025 plenary, the FATF made the initial determination that Tanzania has substantially completed its action plan and warrants an on-site assessment to verify that the implementation of AML/CFT reforms has begun and is being sustained, and that the necessary political commitment remains in place to sustain implementation in the future.

Tanzania has made the following key reforms: (1) improving risk-based supervision of FIs and DNFBPs, including by conducting inspections on a risk-sensitive basis and applying effective, proportionate, and dissuasive sanctions for non-compliance; (2) demonstrating authorities' capability to effectively conduct a range of investigations and prosecutions of ML in line with the country's risk profile; (3) demonstrating that LEAs are taking measures to identify, trace, seize, and confiscate proceeds and instrumentalities of crime; (4) conducting a comprehensive TF Risk Assessment and begin implementing a comprehensive national

CFT strategy as well as demonstrating capability to conduct TF investigations and pursue prosecutions in line with the country's risk profile; (5) increasing awareness of the private sector and competent authorities on TF and PF-related TFS; and (6) carrying out the TF risk assessment for NPOs in line with the FATF Standards and using it as a basis to develop an outreach plan.

Venezuela

In June 2024, Venezuela made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime. Venezuela should continue working on implementing its FATF action plan to address its strategic deficiencies by: (1) strengthening its understanding of ML/TF risks, including in relation to TF and legal persons and arrangements; (2) ensuring the full range of financial institutions and DNFBPs are subject to AML/CFT measures and risk-based supervision; (3) ensuring adequate, accurate and up-to-date beneficial ownership information is accessible in a timely manner; (4) enhancing the resources of the FIU and improving competent authorities' use of financial intelligence; (5) enhancing the investigation and prosecution of ML and TF; (6) ensuring measures to prevent the abuse of NPOs for TF are targeted, proportionate, and risk-based and do not disrupt or discourage legitimate activities within the NPO sector; and (7) implementing TF-and PF-related targeted financial sanctions without delay

Vietnam

Since June 2023, when Vietnam made a high-level political commitment to work with the FATF and APG to strengthen the effectiveness of its AML/CFT regime, Vietnam has made limited progress. The FATF strongly encourages Vietnam to coordinate internally to demonstrate progress on its action plan to address its strategic deficiencies, including by: (1) increasing risk understanding, domestic co-ordination and co-operation to combat ML/TF; (2) enhancing international co-operation; (3) implementing effective risk-based supervision for FIs and DNFBPs; (4) taking action to regulate virtual assets and virtual asset service providers; (5) addressing technical compliance deficiencies, including with respect to the ML offence, targeted financial sanctions, customer due diligence and suspicious transaction reporting; (6) conducting outreach activities with the private sector; (7) establishing a regime that provides competent authorities with adequate, accurate and up-to-date information on beneficial ownership; (8) ensuring the independence of the FIU and enhancing the quality and quantity of financial intelligence analysis and disseminations; (9) prioritizing parallel financial investigations and demonstrating an increase in the number of

ML investigations and prosecutions undertaken; and (10) demonstrating that there is monitoring of FIs and DNFBPs for compliance with PF TFS obligations and that there is co-operation and co-ordination between authorities to prevent PF TFS from being evaded.

Yemen

(Statement from February 2023)

Since February 2010, when Yemen made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Yemen has made progress to improve its AML/CFT regime. In June 2014, the FATF determined that Yemen had substantially addressed its action plan at a technical level, including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing procedures to identify and freeze terrorist assets; (3) improving its customer due diligence and suspicious transaction reporting requirements; (4) issuing guidance; (5) developing the monitoring and supervisory capacity of the financial sector supervisory authorities and the financial intelligence unit; and (6) establishing a fully operational and effectively functioning financial intelligence unit. While the FATF determined that Yemen has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation, and conduct an on-site visit at the earliest possible date.

Jurisdiction No Longer Subject to Increased Monitoring by the FATF

Philippines

The FATF welcomes the Philippines' significant progress in improving its AML/CFT regime. The Philippines strengthened the effectiveness of its AML/CFT regime to meet the commitments in its action plan regarding the strategic deficiencies that the FATF identified in June 2021 by (1) demonstrating that effective risk-based supervision of DNFBPs is occurring; (2) demonstrating that supervisors are using AML/CFT controls to mitigate risks associated with casino junkets; (3) implementing the new registration requirements for MVTS and applying sanctions to unregistered and illegal remittance operators; (4) enhancing and streamlining LEA access to BO information and taking steps to ensure that BO information is accurate and up-to-date; (5) demonstrating an increase in the use of financial intelligence and an increase in ML investigations and prosecutions in line with risk; (6) demonstrating an increase in the identification, investigation and prosecution of TF cases;

(7) demonstrating that appropriate measures are taken with respect to the NPO sector (including unregistered NPOs) without disrupting legitimate NPO activity; (8) enhancing the effectiveness of the targeted financial sanctions framework for both TF and PF; and (9) applying cross-border measures in all main international sea/airports, in line with the risk.

The Philippines should continue to work with APG to sustain its improvements in its AML/CFT system. The FATF encourages the Philippines to continue its work in ensuring that its CFT measures are appropriately applied, particularly the identification and prosecution of TF cases, and are neither discouraging nor disrupting legitimate NPO activity.

Outcomes FATF Plenary, 19-21 February 2025

Paris, 21 February 2025

The second FATF Plenary under the Presidency of Elisa de Anda Madrazo of Mexico concluded today. Delegates from the FATF's Global Network of over 200 jurisdictions and observers from international organisations participated in three days of technical discussions to determine measures to address key money laundering, terrorism financing and proliferation financing issues.

After an extensive public consultation, the Plenary agreed changes to the FATF Standards to better support a risk-based approach and financial inclusion, a key priority under the Mexican Presidency.

It also finalised important work on combating financial flows related to online child sexual exploitation, with a report approved for publication next month, aiming to protect children from harm.

To support the implementation of the changes to the Standards around financial inclusion, the Plenary agreed to launch a further public consultation. The Plenary also agreed to consult publicly on work relating to payment transparency and complex proliferation financing and sanctions evasions, as the FATF continues to seek the widest possible range of views and perspectives to inform its work.

The FATF removed the Philippines from its increased monitoring following a successful on-site visit and updated its statements on 'high-risk and other monitored jurisdictions'.

The Plenary also welcomed Kenya who was invited to participate at the FATF Plenary and Working Groups under the new guest initiative aimed at increasing inclusivity and better

taking into account regional specificities at the FATF. Kenya joins the Cayman Islands and Senegal who began participating in the guest initiative in October 2024.

The suspension of the Russian Federation continues to stand ([see February 2024 statement](#)).

Compliance with the FATF Standards

High-risk and other Monitored Jurisdictions

Jurisdictions under increased monitoring

[Jurisdictions under increased monitoring](#) are actively working with the FATF to address the strategic deficiencies in their regimes to counter money laundering, terrorist financing and proliferation financing. When the FATF places a jurisdiction under increased monitoring, it means the country has committed to implement an Action Plan to resolve swiftly the identified strategic deficiencies within agreed timeframes.

At this Plenary, the FATF added Lao People's Democratic Republic and Nepal to the list of jurisdictions subject to increased monitoring.

Jurisdictions no longer under Increased Monitoring

The FATF Plenary congratulated the Philippines for the positive progress in addressing the strategic anti-money laundering and countering the financing of terrorism and proliferation financing (AML/CFT/CPF) deficiencies previously identified during their mutual evaluations. The Philippines has completed their Action Plan to resolve the identified strategic deficiencies within agreed timeframes and will no longer be subject to the FATF's increased monitoring process.

The Philippines should continue to work with the Asia/Pacific Group on Money Laundering of which it is a member to sustain its improvements in its AML/CFT system. The FATF encourages the Philippines to continue its work in ensuring that its CFT measures are appropriately applied, particularly the identification and prosecution of TF cases, and are neither discouraging nor disrupting legitimate NPO activity.

Jurisdictions subject to a Call for Action

The FATF identifies countries or jurisdictions with serious strategic deficiencies to counter money laundering, terrorist financing, and proliferation financing. These [jurisdictions are subject to a call for action](#) to protect the international financial system.

Membership Issues

The suspension of the membership of the [Russian Federation](#) continues to stand. Following [the statements](#) issued since March 2022, the FATF reiterates that all jurisdictions should be vigilant to current and emerging risks from the circumvention of measures taken against the Russian Federation in order to protect the international financial system.

Strategic Initiatives

Financial Inclusion and the Risk-based Approach

Following a public consultation which gathered more than 140 responses, members agreed to revise the FATF Standards to better support financial inclusion, recognising that around 1.4 billion people around the world still do not have a bank account.

The changes are informed by a broad range of submissions, including from non-profit organisations, banks, payment providers, insurers, academics, accountants, lawyers and other international organisations.

Recommendation 1 aims to ensure countries apply a risk-based approach to their anti-money laundering and counter-terrorist financing and proliferation financing measures. The changes will encourage financial institutions applying simplified measures where risks are lower, and thus facilitating people's access to financial services.

This builds on an extensive body of work responding to the findings of a 2021 [stocktake](#), where the FATF highlighted how de-risking, financial exclusion, undue targeting of non-profit organisations and curtailment of human rights can occur where jurisdictions do not properly apply a risk-based approach.

Detecting and Disrupting Online Child Sexual Exploitation

The Plenary approved a landmark report looking at how examining financial flows and producing financial intelligence can help to detect, disrupt and investigate the alarming monetisation of live streaming of child sexual abuse and the “sextortion” of children.

The report, which draws on case studies and expertise from the FATF's Global Network, will help link financial transactions to offenders and enable earlier detection and intervention in cases of online child sexual exploitation.

The report will be launched at an event in London on 13 March 2025, which will bring together representatives from across the public and private sectors, aiming to operationalise the report's findings around the world.

FATF Vice-Presidency (2025-2027)

The Plenary selected Mr. Giles Thomson, from the United Kingdom (UK) to be the next FATF Vice President. He will succeed Mr Jeremy Weil from Canada, who has served in this role since 1 July 2023 and will step down on 30 June 2025. Mr. Thomson will hold this position for two years from 1 July 2025. Mr Thomson is currently Director of the Office for Financial Sanctions Implementation and Economic Crime at HM Treasury and Head of the UK delegation to the FATF.

Public Consultations

To embed the changes to Recommendation 1 to support a risk-based approach and financial inclusion, the FATF is working on new guidance that will equip policy makers and regulators with practical examples to encourage widespread adherence to the changes. The FATF invites feedback on this guidance so that the public and private sectors are best able to implement a risk-based approach.

FATF also agreed to consult on potential revisions to its Recommendation 16 on payment transparency which would improve standardisation and quality of originator and beneficiary information in payment messages. This should help achieve greater transparency and security, avoid duplication and foster more effective compliance processes by financial institutions, while also supporting faster, cheaper payments. The FATF seeks the broadest range of views as it aims to support the use of new technologies without compromising defences against illicit finance.

FATF also seeks input on its work to understand Complex Proliferation Financing and Sanctions Evasions Schemes. FATF will seek information on best practices and challenges on identifying, assessing, understanding and mitigating Proliferation Financing risk. The public consultation will also seek views on how the FATF can support the private sector to meet their CPF obligations.

Details of the three consultations will be published on the FATF website in due course.

Global Network Cooperation

Under its Mexican Presidency, the FATF intensifies its actions to increase FATF-Style Regional Bodies' (FSRBs) voices and participation in FATF work and to strengthen cohesion in the Global Network.

The FATF President built further on its initiative launched in October 2024 to invite guest jurisdictions to input more actively in the FATF and promote further engagement within the region. This week Kenya joined the Cayman Islands and Senegal at the Plenary table as guest jurisdictions.

The guest initiative aims to broaden the diversity of perspectives and backgrounds at the FATF from regions of the globe that currently do not have many FATF members involved in their regional bodies as joint members. Invitations to guest jurisdictions are for one year, on a rotational basis.

Women in FATF and the Global Network (WFGN) Initiative

A successful event was held this week in support of the growing [Women in FATF and the Global Network programme](#), and the FATF discussed further proposals to support women's careers within the FATF and the Global Network. The FATF will launch its 2nd edition of the FATF Mentoring Programme in March 2025.

Horizontal Review of Gatekeepers' Technical Compliance Related to Corruption

The Plenary affirmed the importance of the FATF's [Horizontal Review of Designated Non-Financial Businesses or Professions \(DNFBPs\)](#), which looked at actions FATF members have taken to apply important aspects of the FATF Recommendations to lawyers, accountants, trust and company service providers, and real estate agents. Countries were encouraged to continue to address their deficiencies.

Private Sector Collaborative Forum

Members showed continued support for the FATF's close collaboration with the private sector and civil society in order to effectively tackle current and emerging threats to the global financial system.

The FATF's annual Private Sector Collaborative Forum will take place in Mumbai on 25 – 27 March 2025, and will bring together representatives from the financial sector, non-financial businesses and professions, civil society, academia, FATF members and other stakeholders.
